OMGwtfbbq!!!1

Just a clarification, Mitsuki fell down because of her earlier injuries (the really hard to se panel is down there) and landed on Yuu's scalpel. I know most of you will see that, but the first time I read through this I was like 'wait. what?'

The author has been changing some pages when the volumes are published (page added here, words changed there, stoff like that), so I assume hell add in a stumble sequence that makes this easier to understand.

cheers, -snoopy
